3. Install SMS2ALL App by scanning QR code or URL below.

URL: <https://qrqo.page.link/1qzJb>

QR code:

4. App shall be shown on your device.

5. Phone language must be in English.
5. Phone must be 24h charging and activate Developer mode to enable “Stay awake”.
 - If using stock Android, go to Settings > About phone > Build number.
 - a. On a Samsung Galaxy device, go to Settings > About phone > Software information > Build number.
 - b. On an HTC device, go to Settings > About > Software information > More > Build number.
 - c. On an LG device, go to Settings > About phone > Software info > Build number.
 - Tap Build number seven times. After the first few taps, you should see the steps counting down until you unlock the developer options. Once activated, you will see a message that reads, “You are now a developer!”
 - Go back to Settings, where you’ll now find a Developer options entry at the very bottom of the menu.
 - Go to Developer options and enable Stay awake.

5. App Installation completed and kindly notify administration.
